

Meet Doctor B

Known as Doctor B, Op. Bülent Cihantimur, MD is a world-famous aesthetic, plastic and reconstructive surgeon who has more than 18 years of experience, owns a membership of ISAPS (International Society of Aesthetic Plastic Surgery). With his scientific based innovative works, the famous surgeon has become a phenomenon in Turkey, Europe and Middle East and he has brought new methods and different perspectives to medical science with the techniques he developed.

Doctor B takes it as his duty to raise people's awareness on aesthetic surgery and help them access easily to information and also he has eliminated the aesthetic concerns of people who attended to TV programs with "new lives" theme and helped them to change in a short period. Saying that his aim is always create more happiness, Doctor B cares about the inner peace of his patients and defends that the aesthetic surgeons principally contributes to self-confidence.

By using media, press and internet and attending many events to raise public awareness and show people how to get help from aesthetic surgery, Doctor B has the chance to show his unique vision to the world and he has reached many patients internationally.

"I consider this profession as an art. A scientific art! That is why I consider the results as an artwork."

Doctor B

Techniques Developed

The most distinctive attribute of Doctor B is that he primarily considers himself as an artist who loves his job, rather than a surgeon. Because he doesn't repair, he designs. Also, he prioritizes the comfort of his patients with the techniques he developed and he has created a breakthrough with key innovations such as "without surgery, without a trace of the incision, shorter recovery times".

There are eight special techniques developed by Doctor B:

- Non-surgical treatment of Trigger Finger
- Cihantimur Fat Transfer System
- Cosmetic Ear Correction with Threads
- Spider Web Facial Aesthetic
- Genital Rejuvenation
- Basic Nose Job (Rhinoplasty)
- Organic Hair Transplantation
- Leg Rejuvenation

Close up

Doctor B is among the best 50 plastic surgeons of the world that are specialized on face, breast and body, fat transplant and stem cell. In the 3rd World Plastic Surgery Congress held in Monaco, he was awarded the "Golden Bistoury" as a result, his quality presentation which was about "Genital Rejuvenation" technique he developed and the new perspective he has brought to aesthetic surgery. Chosen as the "Physician of the Year" in 2014, Doctor B also told about his techniques in 17th Paris IMCAS Annual World Congress, which more than 4500 members of the profession have attended and he has presided two different sessions. Attending many events like congress, seminar, workshop, Doctor B spends most of his time on research and development activities.

Satisfaction

Doctor B's patients have one thing in common regardless of their gender, age or country: The result is 100% satisfaction. There are celebrities, entertainers, super models who are considered as fashion icons and business managers are among the many patients of Doctor B. His expert surgical skills, aesthetical perspective, practical techniques he developed and his sensitivity to patient ethical values enabled him to obtain a large universal patient experience today.

“Successful cosmetic surgeries are the operations which are impossible to notice but show the vitality”

Doctor B

More than 150 personnel- Estetik International

In 1999, Doctor B has founded Estetik International Health Group which is one of the most important health institutions of Turkey, where aesthetic surgery and medical applications are carried out. He is still the general coordinator of this clinic. A first in its area, Estetik International with its more than 150 personnel is among the biggest organizations in Turkey on aesthetic surgery and medical applications. From facial care to surgical operations, Estetik International meets its patients with the same friendliness, attentive care and professional service in its 7 branches in 4 different cities.

Reject Aging and articles

Doctor B has written a book named “Reject Aging” which he narrates on how to protect the beauty and presented a unique, striking and opponent content in his book which has its second press. He has put forward the beauty protector concept which claims that flaws are beautiful and excludes golden ratio. He told about how people can protect from aging, what types of precautions can be taken and when and how to get help from aesthetic surgery. Doctor B also included the techniques he developed in his book which has the patient stories.

“There’s no such thing as an ugly person, everybody is beautiful! It’s in your power to protect beauty and reject aging”

Doctor B

Doctor B is also a columnist in Turkey's leading media organs to raise public awareness, improve individuals' quality of personal care, give directions, guide and provide ease of access to true information.

Doctor B Active Cosmetics

Doctor B states that daily and regular maintenance is the basis of a healthy skin. Therefore, he launched the active cosmetic brand he developed and thus he offered a range of products to his patients and other consumers for their daily care routine. Doctor B Active Cosmetics helps people to continue being a beauty protector at home with formulations which aesthetic surgery and active cosmetic products come together. With these products that reflect his innovative and visionary perspective, Doctor B is working to help people feel younger, live happier and healthier and most importantly, to help them to find out their existing potential.

These formulations have been developed to put on the world market and they have been offered as a product range which people can use before and after aesthetic surgery and during their daily care routine.
